

PARA-TEX B

HIGH STRENGTH ARAMID BRAID

PRODUCT DESCRIPTION

Para-Tex B braided aramid sleeving guards hoses, tubing, wires, cables, and other critical systems from thermal, abrasion, mechanical wear, and cut-through hazards in the most rugged & demanding applications. Para-Tex B sleeving is manufactured with genuine DuPont™ Kevlar®.

Para-Tex B sleeving is unaffected by fresh & salt water, oils, lubricants, fuels, solvents, and most common industrial and automotive fluids, and is suitable for use across a wide range of operating temperatures. Para-Tex B will not melt, burn, or support combustion. The braided construction of Para-Tex B provides 100% system coverage, remains flexible across the operating temperature range, conforms to bends and irregular shapes, and expands for easy installation over long runs or over existing fittings and connectors.

Applications for Para-Tex B include hose protection, cable & wire jacketing, tube reinforcement, composites production, multiple line bundling, thermal insulation, and high-temperature abrasion protection.

Sleeve ID		Part Number
1/4"	6mm	KS04200
3/8"	10mm	KS06200
1/2"	13mm	KS08200
3/4"	19mm	KS12200
1"	25mm	KS16200
1-1/4"	32mm	KS20200
1-1/2"	38mm	KS24200
1-3/4"	44mm	KS28200
2"	51mm	KS32200
2-1/2"	64mm	KS40200
3"	76mm	KS48200
3-1/2"	89mm	KS56200
4"	102mm	KS64200

Available in natural yellow color standard. 5 additional high-visibility colors available.

WORKING TEMPERATURE

- CONTINUOUS: 320°F / 160°C
- MAXIMUM: 570°F / 300°C
- MINIMUM: -320°F / -195°C

ACCREDITATIONS

- REACH & RoHS Compliant
- Made in USA

MATERIAL COMPOSITION

- Made with DuPont™ Kevlar®
- Expandable braided construction
- Non-irritating aramid fiber
- Lightweight & high strength

AVAILABILITY

- 1/4" thru 4" ID sleeve sizes
- Supplied 100 ft. per standard box
- Stock product for fast shipping
- Bulk lengths available to minimize scrap generation during assembly
- Pre-cut short lengths
- Natural yellow color standard

ADDED VALUE

- Spooling & custom packaging
- Overbraiding services available
- Highly visible yellow color

PLEASE NOTE

- Avoid direct exposure to sunlight
- Sleeve will discolor in fluorescent light with no performance impact
