

WORKING TEMPERATURE

CONTINUOUS: 320°F / 160°C

MAXIMUM: 570°F / 300°C

MINIMUM: -320°F / -195°C

ACCREDITATIONS

- REACH & RoHS Compliant
- Made in USA

MATERIAL COMPOSITION

- Made with DuPont™ Kevlar®
- Dense knit construction
- Non-irritating aramid fiber
- Lightweight & high strength

AVAILABILITY

- 1/4" thru 5" ID sleeve sizes
- Supplied 100 ft. per standard box
- Stock product for fast shipping
- Bulk lengths available to minimize scrap generation during assembly
- Pre-cut short lengths
- Natural yellow color standard

ADDED VALUE

- Spooling & custom packaging
- Highly visible yellow color

PLEASE NOTE

- Avoid direct exposure to sunlight
- Sleeve will discolor in fluorescent light with no performance impact

PARA-TEX K

HIGH STRENGTH ARAMID KNIT

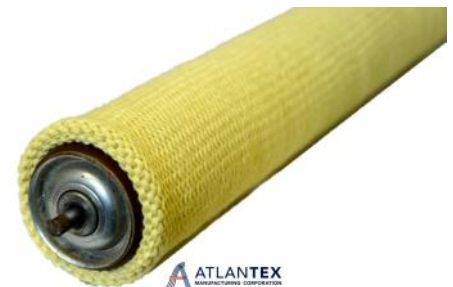

PRODUCT DESCRIPTION

Para-Tex K knitted aramid sleeving guards hoses, tubes, wires, cables, and other critical systems from thermal, abrasion, mechanical wear, and cut-through hazards in the most rugged & demanding applications. Para-Tex K sleeving is manufactured with 100% genuine DuPont™ Kevlar® fiber.

Para-Tex K sleeving is unaffected by fresh & salt water, oils, lubricants, fuels, solvents, and most common industrial and automotive fluids, and is suitable for use across a wide range of operating temperatures. Para-Tex K will not melt, burn, or support combustion. The knitted construction of Para-Tex K provides a soft, pliable outer jacket, remains flexible across the operating temperature range, conforms to bends and irregular shapes, and slides easily for installation over long runs or over existing fittings and connectors.

Applications for Para-Tex K include hose protection, cable & wire jacketing, tube reinforcement, roller covers, multiple line bundling, thermal insulation, and high-temperature abrasion protection.

Sleeve ID		Part Number
1/4"	6mm	KS04100
1/2"	13mm	KS08100
3/4"	19mm	KS12100
1"	25mm	KS16100
1-1/4"	32mm	KS20100
1-1/2"	38mm	KS24100
1-3/4"	44mm	KS28100
2"	51mm	KS32100
2-1/2"	64mm	KS40100
3"	76mm	KS48100
4"	102mm	KS64100
5"	127mm	KS80100
