PYROTEX SA TAPE
SELF-FUSING SILICONE

WORKING TEMPERATURE

CONTINUOUS: 500°F / 260°C
MINIMUM: -65°F / -54°C

ACCREDATIONS

- UL-Listed Insulating Tape
- REACh & RoHS Compliant
- Made in USA

MATERIAL COMPOSITION

- Non-adhesive silicone polymer

PERFORMANCE

- Insulates 400 Volts per Mil
- Stretches 300%
- Airtight and waterproof seal

AVAILABILITY

- Standard packaging:
  - 36 ft. roll
  - 10 ft. roll
- Stock product for fast shipping
- 1" & 1-1/2" widths
- 0.020" and 0.060" thicknesses
- 8 tape colors available, including clear

ADDED VALUE

- Custom colors available
- Centerline for easy installation
- Leaves no residue if removed

ISO 9001

PRODUCT DESCRIPTION

Pyrotex SA Tape is a self-fusing silicone tape ideal for use in the most extreme applications. The ease of use, unique properties, and performance characteristics make Pyrotex SA Tape a must-have for any toolbox.

Non-adhesive Pyrotex SA Tape does not bond to whatever it is wrapping, but fuses only to itself, creating a waterproof and airtight high temperature seal that leaves no sticky residue upon removal. The flexible polymer tape is easy to install, stretching up to 300% and conforming around tight bends.

Pyrotex SA Tape is commonly used as a means to seal the ends of firesleeved assemblies to prevent fluid wicking, thermal transfer and glass fiber escape, and to give assemblies a neat finished look. Pyrotex SA Tape is also used to hold Pyrotex S/G Tape in place and to reinforce Pyrotex firesleeve closures, including Velcro®, snaps, and zippers. Pyrotex SA Tape is available in an array of colors to match any Pyrotex Firesleeve, and is also available in clear to help preserve logos and tags.

Pyrotex SA Tape 1" wide x 20 mil thick x 36 ft. length	
Color	**Part Number**
Red / Orange	SA16000-10
Black	SA16000-30

Pyrotex SA Tape 1" wide x 20 mil thick x 10 ft. length	
Color	**Part Number**
Clear	SA16000-00NL
Grey	SA16000-20NL
