

## PYROTEX S/G TAPE

### SILICONE-COATED FIBERGLASS

#### PRODUCT DESCRIPTION

Pyrotex S/G Tape is a flexible, non-adhesive wrap that protects systems from damage caused by molten splash, direct flame, and intense heat. Manufactured by coating a knitted, texturized fiberglass tape with a thick layer of self-extinguishing silicone rubber, Pyrotex S/G Tape withstands a wide range of temperatures, as well as common industrial fluids, UV and ozone, fresh and salt water, oils and fuels, and solvents.

Installing Pyrotex S/G Tape simply done in the field, with no line disconnection or special tools required, cutting cleanly with ordinary scissors. Pyrotex S/G Tape is highly flexible and available in a range of widths to wrap easily around large diameter systems or irregular shapes, and is easily fastened with Pyrotex SA Self-Fusing Silicone Tape, band clamps, or wire ties. A 50% overlap is recommended when installing S/G Tape.

Pyrotex S/G Tape can be coated on both sides, resulting in a thicker and more robust protective wrap. Double-sided Pyrotex S/G Tape is a made-to order product.

Pyrotex S/G Tape		
Width		Part Number
1"	25mm	PT16700-10
2"	51mm	PT32700-10
3"	76mm	PT48700-10
4"	102mm	PT64700-10
5"	127mm	PT80700-10
Double-Sided Pyrotex S/G Tape		
Width		Part Number
1"	25mm	PT16700-10DS
2"	51mm	PT32700-10DS
3"	76mm	PT48700-10DS
4"	102mm	PT64700-10DS
5"	127mm	PT80700-10DS

Double-Sided Pyrotex S/G Tape

#### WORKING TEMPERATURE

CONTINUOUS: 500°F / 260°C

MINIMUM: -65°F / -54°C

INTERMITTENT: 2200°F / 1200°C

SHORT TERM: 3000°F / 1645°C

#### ACCREDITATIONS

- REACh & RoHS Compliant
- Made in USA

#### MATERIAL COMPOSITION

- Highly texturized E-Glass fiber
- Knitted insulating substrate
- High-temperature silicone

#### AVAILABILITY

- Standard packaging: 100 ft. roll
- Stock product for fast shipping
- Pre-cut pieces and bulk lengths
- 1" through 5" width
- Stocked in standard red/orange
- 7 coating colors available

#### ADDED VALUE

- Custom layline printing available
- Wider tape available, slit from knit Pyrotex firesleeve
- Double-sided silicone coating available
